OUTLOOK:

Weather Discussion: A broad low pressure system will continue to push inland today over the Northwest and Northern Rockies. The low will bring showers to the coasts of Oregon and Washington as well as northern Idaho. Further east, over the plains of Montana, thunderstorms are possible with gusty winds. Winds will also be strong across the northern Great Basin as temperatures begin to fall. In the Southwest, hot, dry and breezy conditions will be the rule. Some thunderstorms are also possible in southern Colorado and northern New Mexico in the afternoon. Central Florida will once again experience scattered thunderstorms today.
